

## VOTE BY NOV. 2!

These past few months have been filled with community. I've been knocking on doors, attending neighborhood meetings, gathering at residents' homes, and getting the pulse of Ward 2. And, it's been some of the most rewarding work I've done since my appointment to city council in November 2020.

Overwhelmingly, I feel how much people love living in St. Louis Park and their passion for their neighborhoods. Especially their parks! These spaces are such a great asset for building connections and gathering with friends. Residents are also in tune to the challenges and opportunities we will meet as a community in the coming years.

There is a strong desire to share the great things the Park has to offer with others. That's why neighbors are concerned about the next generation of homebuyers having affordable options for their first home. And in that mix, neighbors want to know what racial equity and racial justice looks like. Together, we need to find a way to acknowledge that our city was developed to exclude some people, based on race, from living here. And, that means structurally changing our systems and policies to build a more welcoming and equitable community. Like these other issues, climate change is another significant concern and is also one that needs to be addressed locally.

Neighbors also talk about the regular business of the city, like maintaining roads, trash, sewers, and utilities. Supporting street safety in our community by rethinking our streets with lower speed limits, and walking and biking paths. Having police and fire departments and neighborhood associations that protect our neighborhoods.

These are all the things that make our community work. Because we're all rooted in **this** community. I welcome your support and your vote by Nov. 2 to keep working together for the Park.

Ward 2 City Council Member Lynette Dumalag was appointed to the city council in 2020 and is running for election this November.
